ABOUT ME

Full-Stack Developer with **3+ years of professional and freelance experience**, and an additional 6+ years developing personal projects. Proficient in React, Next.js, Node.js, TypeScript, and SQL and NoSQL databases. I specialize in **resolving technical issues and optimizing** both frontend and backend applications, focusing on performance, optimization, scalability, and best development practices.

WORK EXPERIENCE

Product Engineer / Full-Stack Developer - *Fanz*

March 2026 - November 2026 (9 months)

- **Product Development & Visual Editors:** Developed an AI-powered Page Builder (enabling website generation through prompts), an Email Builder, and a Ticket Builder. Implemented drag-and-drop editors, dynamic customization, visual presets, version history, and multilingual support.
- **UX/UI & Onboarding:** Designed and implemented intuitive, accessible interfaces, wizards, guided tours, and onboarding flows to make features easier to use and help users of all technical backgrounds adopt the product.
- **Product Maintenance & Improvement:** Fixed bugs, implemented hotfixes, and addressed customer feedback to ensure product stability and continuous improvement.
- **Technologies & Tools:** React, Next.js, Node.js, TypeScript, and Prisma. Integrated AI agents, Skills, and MCPs into the development workflow to improve implementation, debugging, and quality assurance.

Full-stack Developer - *Pulpou*

September 2024 - September 2025 (1 year and one month)

- **Security Solutions:** Creation and maintenance of the *Brand Protection* platform for large companies.
- **Centralized Auditing:** Development of functionalities to identify intellectual property infringements in global marketplaces and e-commerce.
- **Full-stack Optimization:** Construction of a SPA with React and Node.js APIs, featuring dynamic filters, conditional rendering, and real-time state management.
- **Experience Design:** Implementation of responsive UI with Bootstrap and Atomizer, facilitating massive auditing and management.

FREELANCE EXPERIENCE

Full-stack Developer - *Wowing*

November 2025 - Jule 2026 (8 months)

Development of a personal branding website focused on client acquisition and showcasing services as a certified Disney Agent, with an emphasis on **UX/UI**, **performance**, and **SEO**. For this, I used **Next.js, TypeScript, and TailwindCSS**.

Full-stack Developer - No Country

August 2024 - September 2024 (2 months)

Construction of a Web App platform that connects pet sitters and pet owners. Developed the **Front-end** with **React, Tailwind, and Redux**, and the **Back-end** with **authentication** and reservation flow. **Assumed coordination of tasks and code review**.
